SUMMARY

Aspiring software developer and student with a passion for achieving excellence in web development. I am dedicated to refining my skills and creating innovative, high-performance applications

ACHIEVEMENTS

Science Competition: **Bronze** at district level for Creating smart dustbin for the science hub
Contests: **Zonal Finalist** in Code-Uncode at SPIT and DJ sanghvi, participated in ACM-Semi-code

EDUCATION

B.E in INFORMATION TECHNOLOGY

Thakur College of Engineering and Technology · IN, Maharastra, Mumbai · 2024 · 9.56

EXPERIENCE

Treasurer

TCET|ACM   **August 2023 - Present**

· Zephyr Technical Fest : Part of Creating Visuals, Design elements , Crafting for various games Like Scavenger hunt , neonbowling
· EZINE Contribution: Major role in enhancing visual appeal and content presentation for the department magazine

TECHNICAL CORDINATOR

TSDW   **November 2023 - January 2024**

· Part of technical team of College's Hack-e-nova Hackathon
· Created Multiple Ai/Ml domain problem statements for Participants

PROJECTS

Mocky-interview | NextJs,PostgreSql

mocky-interview.vercel.app

· Developed and launched a serverless mock interview platform using Neon and Drizzle, enhancing scalability and reducingoperational costs.
· Implemented an intuitive, responsive user interface, boosting user engagement and experience by leveraging modern webtechnologies.
· Integrated AI and NLP algorithms for automated question generation and answer evaluation, resulting in 30 percentage moreaccurate feedback and improved user preparation for job interviews

NotsyApp | MERN STACK

nostyapp.vercel.app

· Cloud-Based PDF Notes Sharing: Enabled users to upload, store, and manage their PDF notes securely on the cloud.
· Easy Retrieval and Access: Provided a user-friendly interface for others to search and retrieve shared notes effortlessly

Delicious-Sprinkle: Bakery Website | HTML,CSS,JS

delicious-sprinkle.vercel.app/

· Responsive and Interactive Design: Developed a visually appealing and user-friendly interface with HTML, CSS, and JavaScript,ensuring seamless browsing across all devices.

SKILLS

Technical Skills

Languages: Python, C++, C, JavaScript.

Tools and Deployment: AWS, Postman, REST API, GenAI, Github, Docker, vercel.

Databases:MongoDb,Mysql, firebase,postgresSql

Technologies/Frameworks:ReactJs,NextJs,ExpressJs,Vite,Neon,Drizzle
